

ViewtechAiTM Pedestrian Detection

Pedestrian detection that
ensures safety around heavy
machinery in any industry.

**See the invisible.
Prevent the unthinkable.**

**Driven
by Ai.**

ViewtechAi™ is ground breaking vehicle safety technology for detecting pedestrians and vehicles near moving machinery.

Our clever algorithms accurately detect pedestrians in less than one quarter of a second, creating an alarm to the operator or the pedestrian alerting them of the potential vehicle to human contact. Vehicle detection can also be enabled if required.

ViewtechAi™ works with any Viewtech monitor or can be used standalone as a detection device or in conjunction with the Viewtech VT-PA30 Pedestrian alarm. ViewtechAi™ can also be recorded into Viewtech Fleetview™ and positive detections can be reviewed or alerted.

Key Features

Rear / Top Mounted
ViewtechAi™ Camera for
Rear / Front Detection.

140° Wide Angle,
0.5 - 12m Front & Rear
Detection Range.

Detects Pedestrians
and Alerts the Operator
and/or Pedestrian.

Rapid Response Ai,
Detects Pedestrians
in 0.01 Seconds.

Instant Detection, Display and Alert.

Pedestrians are highlighted, and operators are alerted in real-time on Viewtech™ high-definition monitors.

Heavy Machinery Safety Integration.

From forklifts and container lifters to rollers and graders, our seamless integration sets a new industry safety benchmark, ensuring the ultimate protection for your workforce.

Detect Smarter. React Faster.

ViewtechAi™ Benefits

Visually learned Ai means no safety vest or transponder required for detection.

99% accuracy - even on partially hidden pedestrians.

Works with all Viewtech™ monitors and Viewtech Fleetview™ - recording and live streaming platform.

Trigger output can be connected to anything electrical.

Multiple ViewtechAi™ cameras can be used for all round coverage - no blind spots.

Fast and easy to install into any vehicle.

Associated Products

ViewtechAi™ Reverse Camera

Ai pedestrian detection camera, alerts operator in real time.

VT639AI2

Viewtech™ Pedestrian Alarm

Programmable strobe / speaker to alert the pedestrian.

VT-PA30

Viewtech™ 10" Quad Monitor

Heavy duty, 1080P blind spot display.

VT10FHDQ

Viewtech™ 7" Quad Monitor

Waterproof, HD, blind spot display.

VT7WPQ-720

Viewtech™ Wireless Kit

Make any ViewtechAi™ camera wireless.

VT479TX / VT480R

Viewtech™ Wifi Setup Tool

Use your mobile device to setup.

VTAIWF2

Fleetview™ Mobile DVR

Records up to 2 weeks of footage across up to 4 cameras.

FV401AI-4G

Fleetview™ Software

Live stream and view events remotely.

Protect
what
matters
most.

ViewtechAi™

Pedestrian Detection

Life-saving technology
that protects your workforce
and your business.
